## PROJECTS

### AI Website Builder (Full-Stack SaaS) | 🌐 Github

- Built an AI-powered website builder that generates complete websites from natural language prompts using AI APIs.
- Implemented secure JWT authentication, credit-based usage system, and Stripe payment integration.
- Designed a responsive UI using Tailwind CSS and deployed the application using Vercel and Render.
- Developed RESTful backend APIs with Express.js and PostgreSQL for scalable application architecture

**Technologies / Tools Used :** React, Node.js, Express.js, PostgreSQL, AI API, Stripe, JWT Authentication, Tailwind CSS, Vercel, Render (or your deployment platform), Git, Express, MongoDB

### Smart Grocery Delivery Platform (Full-Stack) | 🌐 Github

- Developed a full-stack grocery delivery platform supporting customers, administrators, and delivery partners.
- Implemented role-based authentication using JWT with secure login and authorization.
- Built an admin dashboard for managing products, orders, users, and delivery operations.
- Integrated real-time order tracking, delivery partner location updates, automated email notifications, and background job scheduling using Inngest.

**Technologies / Tools Used :** Tailwind CSS, Node.js, Express.js, PostgreSQL (Neon), JWT Authentication, Inngest, REST APIs, Git, GitHub, Vercel, Render (or your deployment platform), React

## AWARDS & ACHIEVEMENTS

- Built full-stack web applications using **React, Node.js, Express.js, and MongoDB/PostgreSQL**, focusing on authentication and REST APIs.
- Solved Data Structures and Algorithms problems on **LeetCode** and consistently improving problem-solving skills.
- Participated in hackathons and collaborative software development projects as part of academic coursework.
- Active member of the **Photography Club** and **Creativity Club (Design Team)** at **VIT Vellore**.
- Experienced with **Git** and **GitHub** for version control and collaborative development.

## SKILLS

|                                     |                                                |
|-------------------------------------|------------------------------------------------|
| <b>Programming Languages :</b>      | C, C++, JavaScript, Python, SQL                |
| <b>Frameworks &amp; Libraries :</b> | React, Node.js, Next.js, Express, Tailwind CSS |
| <b>Tools &amp; Platforms :</b>      | Git, GitHub, Docker                            |
| <b>Databases :</b>                  | MySQL, MongoDB                                 |
| <b>Soft Skills :</b>                | Teamwork, Problem Solving, Time Management     |
| <b>Languages :</b>                  | Hindi, English, German, Marathi                |
